Jamie Edelkind
Defendant/Petitioner

Defendants Habeas Corpus petition
To have a Hearing Regarding Recusal of
Judge Morris E. Lasker.

Jamie Edelkind, Defendant, has petitioned and moved that Judge Morris E. Lasker U.S. District Court Judge, be recused for bias, and incompetence, and for his willful disregard for law. Such petition was filed in September of 2005. Since that filing, Judge Lasker has failed to respond to the filing and against statutory dictate, continues to rule on issues relative to the petitioner/Defendant Edelkind.

Edelkind therefore prays that an immediate and expedited hearing be had, with his presence, to determine the affect of Edelkind's petition on the prior rulings of this court and on the future involvement of this judge in any continuing proceedings. Such hearing should be before the chief judge. Edelkind is currently incarcerated, in the custody of the U.S. Marshall's Service, and requests that he be ordered to appear and that such order include a direction to the U.S. Marshall Service to bring the petitioner to court on the date of the hearing.

Petitioner asserts that this matter is urgent as his appeal is contemporaneously being heard and upon its ^{anticipated} remand, an appropriate forum should be, without protest, ^{or delay,} available.
